JAMES O. PASCO, JR.
EXECUTIVE DIRECTOR

THE TRUMP ADMINISTRATION: The First 100 Days

Potential Actions Through Executive Order or Action

- Pledged to rescind Executive Order 13688 which imposed limits on State and local law enforcement equipment programs throughout the Federal government
- Impose a restriction on some or all Federal aid and grant programs to “sanctuary cities”
- Local and State governments who are “sanctuary cities” and those who may have granted documents (like drivers’ licenses or other photographic identifications) which have names and addresses of persons unlawfully present in the U.S. may purge these databases so that they cannot be shared with the Federal government or law enforcement
- End the Deferred Action for Childhood Arrivals (DACA) and, using the Federal database to identify those in the U.S. unlawfully, initiate their deportation
- End access to the U.S. from “terrorist-prone” areas where there is little confidence in the ability of immigration officials to conduct full vettings
- End the Priority Enforcement Program (PEP) at the Bureau of U.S. Immigration and Customs Enforcement (ICE), potentially restoring Project Safe Neighborhoods (PSN) or a re-prioritization of the Federal approach to immigration enforcement
- Expansion of the 287(g) program
- Could reverse the change in U.S.-Cuba relations, perhaps until such time as the cop-killers harbored there are returned to the U.S.
- De-prioritize implementation of some or all of the recommendations made by the President’s Task Force on 21st Century Policing
- Issue new directives to U.S. Attorneys to prioritize violent crimes and to seek the death penalty in Federal cases involving the murder of a law enforcement officer
- Direct Federal law enforcement agencies to not pursue violations of Federal drug laws even in States which have passed legislation legalizing the use, manufacture and possession of marijuana
- Direct Federal agencies to support research into medical marijuana

- Reverse the position of the Federal government on the use of private prisons
- Reverse the Executive Orders with respect to background checks for firearms purchases, authority of the Social Security Administration to provide information on the mental health of its beneficiaries, funding and directed research for “gun safety” technology
- Reverse or amend the broad, Bush-era ban on racial profiling by all or some Federal agencies

Potential Legislative Initiatives

- Legislation entitled the “End Illegal Immigration Act,” to establish a 2-year mandatory minimum Federal prison sentence for illegally re-entering the U.S. after a previous deportation, and a 5-year mandatory minimum for illegally re-entering for those with felony convictions, multiple misdemeanor convictions or two or more prior deportations; also reforms visa rules to enhance penalties for overstaying
- Legislation entitled the “Restoring Community Safety Act” to establish a task force on violent crime and increasing funding for programs that train and assist State and local law enforcement
- Legislation to repeal, and possibly replace, the Patient Protection and Affordable Care Act (ObamaCare) which may end the impending “Cadillac tax” that is slated to take effect in 2018

PLEASE NOTE: This document is a predictive summary of potential actions that the Trump Administration may take in its first 100 days and is based on statements from the campaign and media reports up to the time the document was distributed to FOP members. *It is not an advocacy document and does not represent the FOP's agenda for the first 100 days of the incoming Administration. It is an advisory to our members as to what may happen when the new Administration takes over.*
